

PERMANENT MOLDS

Designed For Efficiency

Processes

- Gravity Permanent Mold
- Low Pressure
- Semi Permanent Mold
- Squeeze Cast
- Semi-Solid Forging

Markets Served

- Automotive
- Trucking
- Racing
- Beverage

Advantages

- Creative Tooling Design
- Rapid Deliveries
- Global Pricing

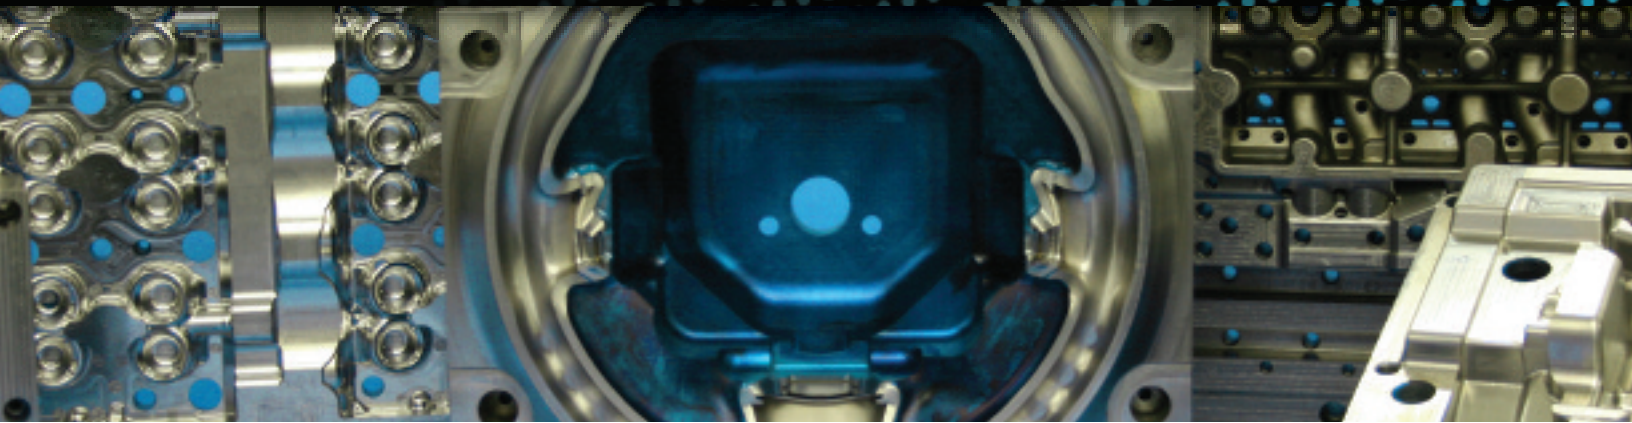

Specialties

- Cylinder Heads
- Cylinder Blocks
- Construction Building Brackets
- Suspension Components
- Beverage Industry Cool Plates
- Aerospace Components

Facilities and Support

- In the USA
- In Mexico
- In China

Innovative Tooling Solutions

Products

- Tooling for precision sand
- Tooling for hot and cold core boxes
- Tooling for Disa
- Tooling for die cast
- Tooling for forging

Benefits

- Tooling designed for lower scrap rate and higher run rate
- Tooling with global content for best possible value
- Tooling with short lead times
- More profits for our customers

Why Anderson

- Rapid turn-around
- Global pricing
- Service after the sale

Services

- Creative engineering solutions
- Laser scanning
- Reverse engineering
- Globally supplied
- Alliance partners for large turn-key projects
- Process consultation
- Lean manufacturing training
- Automation
- Gating simulations
- Core blowing simulations
- Casting process development
